

CHECKLIST

You will shortly be departing on your North East India adventure. In order to make your trip as comfortable and enjoyable as possible, we have put together a recommended list of items that will probably come in handy for your trip – some essential, some purely optional. If possible, it is always recommended to travel light. It will also leave more room to take back souvenirs.

Travel Insurance

This is mandatory and you should ensure that your insurance covers you for items such as medical problems, loss of personal items, baggage delays, and so on. Our guide carries a basic first aid kit, but in the unlikely event of something more serious, you should have adequate medical insurance cover. Please notify us in advance if you suffer from any health condition we should be aware of.

Medicine

You should have the necessary vaccinations in advance of your trip. For India, typical requirements are: Typhoid, Polio, Hepatitis A and Tetanus. Anti-malarial tablets, such as Malarone, are advisable for North East India.

Bring along any other medication you may be on, as well as general medicines such as painkillers and anti-diarrhoea tablets.
